Chapter 1: The Sources and Setting of <i>Ethan Frome</i>		
1. Autobiographical Sources by <i>R.W.B. Lewis</i>	45	
Wharton's biographer sees in <i>Ethan Frome</i> some of Edith Wharton's most intense and private emotional outpourings.		
2. The New England Setting by <i>Barbara A. White</i>	49	
Edith Wharton often turned to late nineteenth century New England to depict life's grim realities, and the psychological complexity of individuals.		
Chapter 2: Style, Technique, and Theme in <i>Ethan Frome</i>		
1. Imagery and Symbolism Reinforce the Novel's Meaning by <i>Kenneth Bernard</i>	60	
The withholding, profoundly silent nature of the novel's characters and community means that Wharton has to utilize a complex network of images and symbols to flesh out the significance of what transpires.		
2. The Narrator's Sensitivity Highlights the Novel's Themes by <i>Joseph X. Brennan</i>	70	
Only through a close study of the role of the narrator, and the images his imaginative sensibility creates, can one truly appreciate the artistry of <i>Ethan Frome</i> .		
5. The Theme of Naturalism by <i>Helge Normann Nilsen</i>	81	
The presentation of life as an unending social and economic struggle set in a harsh natural world marks <i>Ethan Frome</i> as a classic of literary naturalism.		
4. Symbols Emphasize the Theme of Repression by <i>R. Baird Shuman</i>	90	
Certain symbolic elements in the novel highlight the psychological dilemmas the characters face, and explain not only Ethan and Mattie's relationship, but the source of Zeena's hypochondria.		
5. Shame's Dominion over Ethan Frome by <i>Lev Raphael</i>	95	
A sense of shame over a lifetime of disappointments, an overpowering sense of entrapment, and a realization of his inadequacies as a man drive and determine the character of Ethan Frome and the novel's outcome.		
6. The Theme of Illicit Love by <i>Alfred Kazin</i>	101	
Although the life of wealth and privilege Edith Wharton was born into seems remote from the hardscrabble life of Ethan Frome, elements of her life appear either directly or indirectly in this novel.		
Chapter 3: Characters in <i>Ethan Frome</i>		
1. The Male Narrator's View Controls the Reader's Perspective by <i>Susan Goodman</i>	108	
The narrator of <i>Ethan Frome</i> is in many ways a significant character in the novel, and the role Wharton subtly creates for him shows that, for her, a male consciousness can only partially understand the story of the novel's two women characters.		
2. Ethan Expresses Wharton's Greatest Themes by <i>Blake Nevius</i>	114	
The character of Ethan Frome explores Wharton's central concerns over the sources of happiness and torment in an individual's life.		
5. Ethan and Entrapment by <i>Anja Salmi</i>	120	
Just as Andromeda is chained to a rock in Greek mythology, so Ethan Frome is chained to Starkfield and the hopeless situation on his farm.		
4. Zeena Represents the Nineteenth-Century Female Role by <i>G.S. Rahl</i>	128	
In its presentation of Zeena Frome and Mattie Silver, <i>Ethan Frome</i> exhibits the extent to which society shapes and imprisons the female sensibility.		
5. "Neurosis Conquers All": Zeena's Triumph by <i>Richard B. Hovey</i>	132	
The pure, unremitting realism and tragic nature of the novel is best expressed in the psychological complexity of Zeena Frome and her ultimate domination over her husband.		
Chapter 4: The Case for and Against <i>Ethan Frome</i>		
"A Dead Book": The Novel's Tragic Story Remains Flawed by <i>Lionel Trilling</i>		145
The meaningless suffering to which Wharton subjects Ethan and Mattie means that the novel lacks a deeper moral purpose.		
<i>Ethan Frome</i>: A Truly Tragic Novel by <i>Geoffrey Walton</i>		154
There is a terrible inevitability to the disaster that strikes the lives of Ethan Frome and Mattie Silver. Do the inevitability and the terribly limited choices that face the characters undermine the strength of the novel?

Mattie Silver as the Female Intruder by <i>Carol Wershoven</i>		140
Mattie Silver represents a female figure present in so many of Wharton's novels—that of the intruder who is almost inevitably destroyed.
