

# 4/9/24 NEW CADAA UPDATE FOR STUDENTS FROM MIXED STATUS FAMILIES

The California Student Aid Commission (CSAC) has opened the California Dream Act Application (CADAA) to students experiencing difficulties with the 2024-25 FAFSA and who meet all of the following criteria:

- First-time financial aid applicants who have never applied for financial aid / submitted a FAFSA
  - \*CSAC is working towards a solution to allow renewal students (students who have completed a FAFSA or CADAA in previous years) to submit a CADAA if they are facing similar challenges with the FAFSA. Once the CADAA is made available to renewal students, CSAC will follow up with students immediately through email or a phone call.
- Have at least one FAFSA contributor (parent(s)/spouse) without a Social Security Number (“non-SSN contributor”)
- Unable to submit a complete FAFSA due to challenges with processing non-SSN contributors’ section(s)

It is important to note that completing a CADAA will only make the student eligible for state and campus-based financial aid, not federal financial aid. Students who are FAFSA-eligible but complete the CADAA due to meeting the requirements listed above, must complete a FAFSA once all FAFSA issues are resolved in order to access all the aid available to them. Students and their non-SSN contributors should continue to pursue the StudentAid.gov account creation and identity verification process even if they choose to complete the CADAA.
